

MLC 2006 Annual report 2021 – Norway

Reference is made to the requirements of MLC Standard A5.1.4/13 and guidance in MLC B5.1.4/10.

This report shows the status for Norwegian ships for 2021.

In total, there are more than 28 000 seafarers and fishers covered by national laws and regulations. There are approximately 10 500 seafarers on ships subject to the MLC 2006 flying the Norwegian flag.

The MLC certification and inspections on Norwegian ships are carried out by the Norwegian Maritime Authority (NMA) and the six recognized classification societies (DNV, BV, ABS, LR, RINA, ClassNK).

Some statistics for Norwegian ships 2021:

- 972 ships with valid MLC certificate;
- 636 MLC inspections carried out on ships with MLC certificate;
- 190 MLC deficiencies given to ships with MLC certificate;
- 2 Norwegian ships were detained or prohibited from leaving port due to serious MLC deficiencies;
- 6 MLC complaints received on Norwegian ships in 2021;
- 262 MLC inspections was carried out on cargo and passenger ships not required to have MLC certificate
 - 441 MLC deficiencies was given to those ships.

Occupational injuries and diseases: 281 personal injuries were registered, of which 14 were related to ship casualties. The rest were work-related. There were 4 fatalities, of which 1 happened on cargo ships. The rest happened on fishing vessels.
